METCALF BANQUET GUEST

Commercial Club Head Gives Result of His Tour Abroad.

LIKES GERMAN CITY WAYS

Where Politics are Eliminated in Governing Municipalities, There Best Results Have Been Secured, Is His Idea.

More than 125 business and professional men tendered Thomas D. Metcalf a banquet last night in the ball room of the Grand hotel and gave him an opportunity to reciprocate by giving a recital of his experiences and observations when making a tour of Europe as the representative of Council Bluffs with the delegates from the American Civic association.

Mr. Metcalf had already given in an informal way a review of his work as a sightseer abroad when he talked to the members of the Retail Merchants' association and had presented it in a much more connected and comprehensive manner in his letters from the other side, but last night he brought it all still more closely by his running narrative and visualized it by showing several hundred stereoscopic views that he had collected or made from photographs.

The formal part of his report was typewritten and was a comprehensive review of the progress of city building and municipal perfection attained in the old world. It was a presentation of the best that Europe has to offer. Particular attention was given by Mr. Metcalf to the municipal government, and it was in Germany where he found the best, much of which he felt was applicable to American cities and some of it particularly to Council Bluffs.

Eliminating Politics.

The lesson of it all was the necessity for the elimination of politics and party patronage in municipal affairs. He described the several forms of commission form of government that had brought the best results to many of the most prosperous German cities, and announced himself as a most ardent advocate of the commission plan for Council Bluffs. He said he would be satisfied with the present Iowa plan if no better could be secured, but that if to the Iowa plan could be added some of the practical and common sense ideas of the German form he felt certain Council Bluffs could become one of the most beautiful, as well as one of the most prosperous cities in the country.

Gas Company Pays Annual Royalty

A. L. English, manager of the Citizens Gas and Electric Light company, yesterday sent to the city building a check for \$3,833.33, the royalty paid to the city under the terms of the company's contract for the year ending October 1, the date of the contract.

The royalty is based on 3 cents per 1,000 feet of gas sold to consumers and 2 per cent of the gross income from electric current.

The royalty has increased from the beginning of the first contract made on October 1, 1907, when it was \$1,167.33. Manager English stated at that time his belief that the annual royalty would reach \$5,000 before the end of the five-year contract, and also that it would show proportionately larger increases each year.

All of this money has gone into the fund from which the city's street lighting bills are paid monthly.

Health and Weight Restored

When food could not be retained on the stomach, her family physician prescribed Duffy's Pure Malt Whiskey, and now Miss Kitty Howard thanks the wonderful remedy because she can eat heartily, and it has increased her weight 50 pounds in six months' time. She says so herself:

"I was directed by my family doctor to take a tablespoonful of Duffy's Pure Malt Whiskey before meals in a little water with sugar added. Before taking your wonderful preparation, I could not eat, and when I did, I could not keep food on my stomach; but thanks to Duffy's Pure Malt Whiskey I can now eat heartily and have increased over 25 pounds in weight in the past six months, which is the length of time I have been taking Duffy's Pure Malt Whiskey. I now weigh 145 pounds, and I attribute my recovery of health and weight to Duffy's Pure Malt Whiskey."—Miss Kitty Howard, 296 Tillary St., Brooklyn, N. Y.

Adams is the fifth county to respond to the call. Burt County Men Fight Court House

(From a Staff Correspondent.) LINCOLN, Oct. 21.—(Special.)—George W. Miner et al. have appealed from a decision of the district court of Burt county, where an injunction was sought to restrain the county board of that county from levying a 5-mill tax for the purpose of erecting a court house. The tax was levied by the board according to a bill passed by the last legislature, but the opposers of the levy claim that the board has no authority to levy the tax because it will bring the levy up to 10 1/2 mills, which is 1 mill more than they can legally levy.

The remonstrators also question the validity of the act of the legislature and want the supreme court to rule on the matter.

CLAWSON MURDER TRIAL BEGINS AT WILBER

WILBER, Neb., Oct. 21.—(Special Telegram.)—In the trial of Clarence Clawson for the murder of Rose McKinley the following were selected to try the accused on a charge of first degree murder: James Cronk, Karl, Donald, Brooks, Krebs, Krenshier, Wilfirth, Chrysal, Freeburn, Latensblager, McDonald and Fleming.

The murder of which Clawson is charged was committed August 2, the last day of the carnival, which had been in progress then three days, and took place in an alley adjoining a dance hall about midnight. It is claimed by the defense that McKinley, who was killed, struck May Kraft, of very questionable character, and was frankly admitted her occupation on the witness stand today; that she called to the Clawson woman for help, that McKinley struck at her and that Clawson came up then after some words and an altercation Clawson drew his razor from his pocket and slashed at McKinley, intending to cut him on the arm, but that McKinley raised his arm and the blow was deflected to McKinley's neck.

Severed the jugular vein and trachea so that it was impossible for McKinley to talk. After the cutting McKinley went to the entrance of the dance hall where he was met by a couple of his friends, taken aside and died in about thirty minutes.

Clawson walked to Crete that night, took a train to Lincoln the next morning, was arrested and brought here by Sheriff Myers, on way down and after arriving again he confessed to the killing, but stated it was in defense of himself, his wife and the Kraft woman.

SEVERAL APPLICATIONS FOR IRRIGATION RIGHTS

(From a Staff Correspondent.) LINCOLN, Oct. 21.—(Special.)—Several applications were filed with the State Board of Irrigation this morning, among them being the following:

The county board of Nuckolls county applies for a state aid bridge across the Republican river one mile west of Superior. The bridge will be 60 feet long and its estimated cost will be \$2,500.

C. N. Philbrick of Fullerton applies for water rights for power purposes from the Cedar river at Belgrade. Patterson & Patterson, attorneys for the Ford Cattle company protest against the granting of the petition on the grounds that the ditch will cut through the cattle yards of the company.

An advisory board to the state board of irrigation has been appointed by the latter board according to the provisions of senate file 271 introduced by Senator Bushen on request of State Engineer Price last winter. While the house butchered up the bill considerably from its original provisions, it is a law and the board yesterday made the following appointments: Representative, C. H. Gustafson of Mead; J. D. Boer, president Nebraska state irrigation association, and H. E. Fredericksen of Omaha.

Nebraska

Many farmers in this county are becoming interested in the matter of securing better dairy cattle for their herds, and it is thought that before long many farms will be stocked with the best dairy cows than can be procured.

GEORGE W. MAXWELL

CHARLES G. SPENCER

Charles G. Spencer, prominent in all the championship trapeze shooting tournaments, says:

"For real enjoyment, I'll take a pipeful of Tuxedo. No chance for tongue-tie, and a mighty large amount of satisfaction."

L. J. SQUIER

L. J. Squier, well known all over the country as a keen-eyed and successful trapeze artist, says:

"Tuxedo is the only REAL smoke. A pipeful of Tuxedo is mild and soothing, and I recommend it highly to all smokers as a clear, cool tobacco."

The Persistent and Judicious Use of Newspaper Advertising is the Road to Big Returns.

THE crack trapshooter has to be a man with steady nerves and muscles absolutely under control—always ready, at the sudden jerk of a string to swing his gun into place and bring down his clay pigeon. This means trained, not to the minute, but to the split-second. He takes no chances with his nerves.

We present the names of some of these crack shots who smoke Tuxedo. They like to smoke; but they take no chances on a tobacco that might "throw them off." They use Tuxedo because it is mild, relaxing, steady—strictly pure.

You take no chances, either, when you smoke Tuxedo. You can smoke it all day long, all the time.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is purposely made to give you all the benefits of the highest grade smoke. It is made from the very finest tobacco Kentucky grows—ripe, mellow, sweet and mild old Burley, aged right up to perfection-day. Tuxedo has had many imitators; none has ever equalled it in sheer quality and smoking-value.
